1814 - UNDER KRONPRINS KARL JOHANS befäl inleder Sverige ett fältståg mot Norge, för att få norrmännen att acceptera freden i Kiel av den 14 januari, där Norge ska överlämnas från Danmark till Sverige (norrmänna varit så viktigt att gå med på det). Den 17 maj utnämnde sig man till ett särskilda rike). Fältståget är i huvudsak tre veckor och slutades med konventionen i Moss den 14 augusti, vilken blir en av grundvalarna för den svenska-norska unionen, som sedan varar till 1905. Fältståget blir också Sveriges senaste krig.
